INTRODUCTION

DVT was founded in the Cape in 1999. We service over 100 large and medium sized organizations and employ in excess of 240 professional staff in the Cape and Gauteng.

DVT is the largest operating subsidiary of Dynamic Technology Holdings and is an empowered business that is committed to meeting all the goals of the BEE Codes of Good Practice.

DVT offers a comprehensive range of services across the **entire** software development lifecycle.

OUR SERVICES

DVT offers a comprehensive end-to-end range of services across the entire software development lifecycle.

Our services are underpinned by a variety of contractual options. These contractual options include comprehensive managed services agreements, strategic IT consulting, outsourced partnerships, short-term specialist assignments, fixed-price software development projects, team-based assignments, broad-based supplementary resourcing and sourcing top talent for our clients.

OUR PEOPLE

Our biggest ideas are built around competent and dynamic people. Firstly we listen and secondly we seek to understand the problem. We then architect and design the correct and most effective solution for each client. DVT will overcome the difficult and the complicated and replace with realistic tailor-made solutions.

We service and schedule our opportunities by harnessing the intellect, innovation and passion of our own highly-skilled permanent staff and hand-picked independent professionals. We can also potentially engage with over 8000 industry specialists that we have met over the ten years since inception. We have an experienced and competent management team that ensures the right solutions and services mix is applied everytime.

OUR CUSTOMERS

We are proud to be working with some of the best known and successful brands in South Africa. Our mission is to build lasting commercial relationships and partnerships that create sustainable business practices.

Our client list includes:

Direct Axis
Eskom
